

SIDETRADE

Augmented Cash Certification Program For Managers

Empower your teams

Our training specialists working within our Services team have built a complimentary Certification Program for Siderade Augmented Cash software dedicated to empowering your employees. This program supports your **digital transformation** journey via user adoption and aims to **increase your team overall work efficiency** and provide them individual recognition.

Built For Your Team

Managers via this scheme upskill their employees while aligning with their own internal training and HR programs. Your employees will be assessed on their knowledge based upon their user profile. This process will identify improvement opportunities or acknowledge milestones by getting certified if they pass the assessment.

User Base Profile Certification

System Admin
For users managing the system and users.

Credit Manager
For users managing the invoices and payment terms.

Cash Collector
For users managing the payment collection activities.

Flexible Learning Program

The assessment is available **24/7** via an online and secured portal. The team manager can enrol the team and if required be notified of the team's results. A certificate or areas for improvement will be sent to the team manager who can plan additional training as needed.

Ready to get Started?
